

Add the Power of T&B's Online Catalog to YOUR Website

Here is your chance to become a valuable resource center for T&B and ABB products in your market area. You can now embed T&B's complete online catalog onto your website, giving your user community access to over 400,000 T&B and ABB items with detailed data sheets on over 26,000 items. In addition, your users will have access to

- 3D Models
- Installation Instructions
- Material Safety Data Sheets (MSDS)
- Sales Drawings
- Submittal package with email capability
- PDF Print Option
- Cross Reference to T&B covering over 250 brands/60,000 items

As a T&B or ABB authorized distributor, you can setup this T&B application *within* YOUR website so you can KEEP your customers captive on your site!

What's more important—this application requires NO MAINTENANCE on your part; it COSTS you absolutely NOTHING to host this application; the information displayed will ALWAYS be the most current and complete ... the same information we display on our T&B site.

Here is a screen shot of how this application might look embedded on ABC Distributor's website...view a live demo application

To add this web catalog i-frame feature to your website, your website development team would insert the following code into your site:

```
<iframe style = 'margin-left: auto; margin-right: auto; width: 800px; height: 650px' id = 'tnbcatiframe' scrolling = 'no' align = 'middle' frameborder = '0' src = 'http://www-public.tnb.com/ps/endeca/if_index.cgi'></iframe>
```
